

# HARVESTING

Financial Inclusion for Farmers in Emerging World

## Farm Data Layers

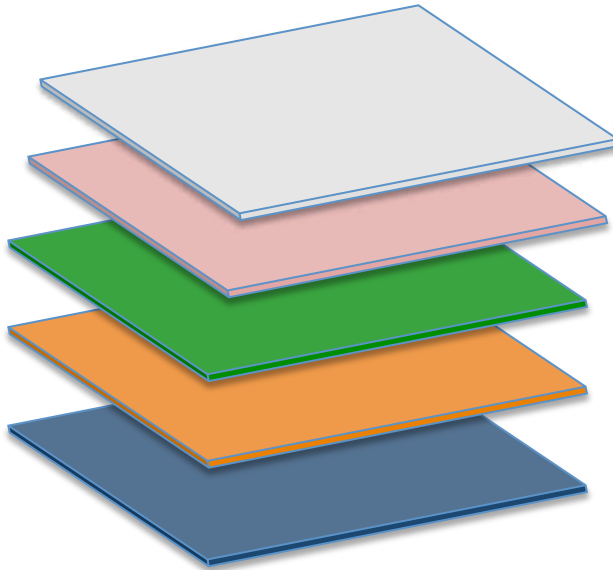

Weather

Imagery

Crop Info

Soil Map

Water Map

Computation

Mapping  
Monitoring  
Estimating  
Forecasting

Effective **mapping**,  
**monitoring & forecasting** of  
crop would bring exponential  
efficiency in world's largest &  
oldest industry

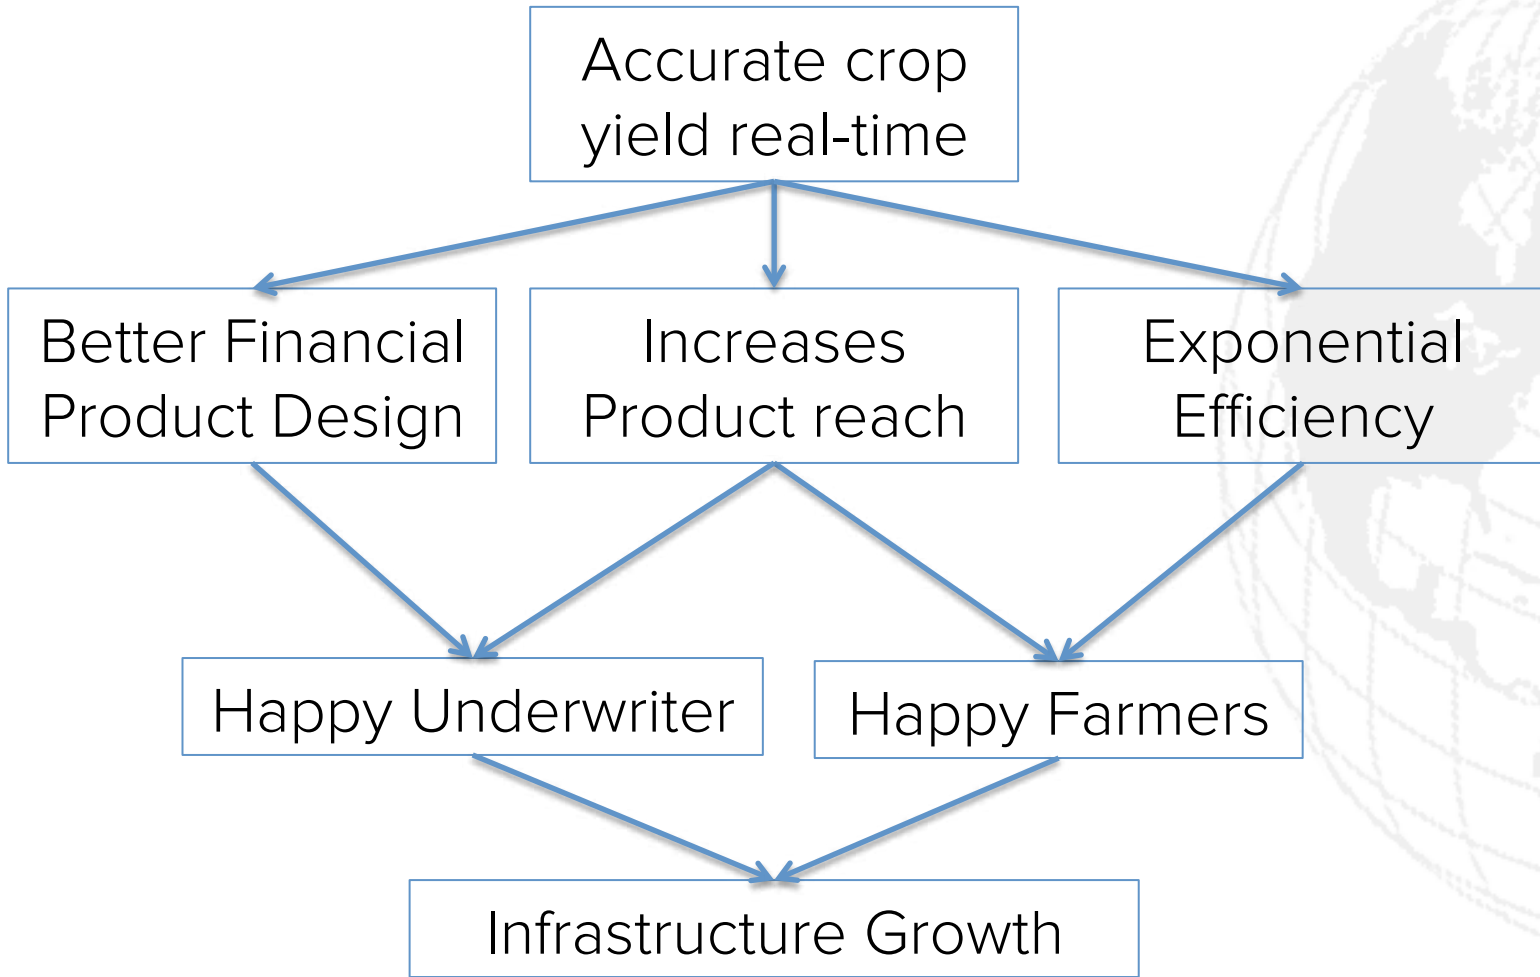

Crop fields & yields are  
center piece of rural & urban  
infrastructure which needs  
**evaluation, monitoring** and  
**investment**

Financial Inclusion of an individual, community, region drives infrastructure **design, growth & sustenance.**

Thank You!
