Facilitating Dataset Discovery in an Open Ecosystem

Measuring Development 2020 Conference

Yale Cong
There are thousands of data repositories across the web...
Introducing Dataset Search

A focused search engine that leverages dataset metadata from data providers

g.co/datasetsearch
How do I include my datasets?

We rely on providers to use schema.org, an open, community-based standard for structured data.
Open Data Ecosystem

Data providers
- Publish structured metadata using community standards

Data consumers
- Cite data properly, like how we cite scientific publications

Developers
- Contribute to expanding metadata for datasets
Thank You!
